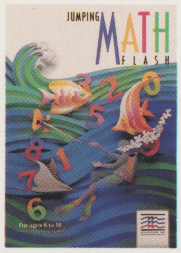
Seven New Educational Programs From Mindscape!

1 Jumping Math Flash



For Ages 6 to 10.
Children love playing this exciting, arcade-style math game. Each youngster navigates an undersea course to find solutions to addition, subtraction, multiplication, and division problems. But enemies lurk in the deep—you must answer quickly before the other fish attack! More than 20 levels of play make it a lively, growth-oriented program your child will enjoy again and again.

2 Rebus Writer

For Ages 8 and up.
Is it a game—or a powerful learning tool that enhances word usage, association skills, and imagination? Children have too much fun to care! A fascination with language develops as kids decipher pictures and symbols to determine rebus phrases and titles. The program's "pictionary" of 250 illustrations help children create rebus messages, or they can draw their own images when creating puzzles to challenge their friends—and you!

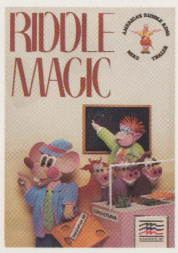
3 Riddle Magic



For Ages 7 and up.
Everyone enjoys riddles! This creativity builder teaches children of all ages the art of riddle making, how to illustrate riddles, and even how to design their own riddle books. The built-in dictionary of over 1800 words for riddle construction provides endless possibilities, and three variations of the basic riddle-making method encourage greater creativity. Kids will laugh and groan—and fall in love with words. Created by America's "Riddle King," Mike Thaler.

4 Vocabulary Challenge

For Ages 7 and up.
Now, you can help assure your child's ever-important vocabulary growth right at home! Four activities reinforce word association, analogy, recognition, classification and meaning for over 3,000 carefully selected words—in games that never feel like homework. Each activity features multiple difficulty levels and provides immediate feedback to your child.

5 Drug Alert!

For Ages 10 and up.
Winner of a Parents' Choice Honor
Help your child say "NO" to drugs! This interactive adventure lets youngsters rescue a friend from drug dependency by seeking clues, gathering facts, answering drug-related questions, and finding and identifying the drug on which the friend is hooked. Including an online database that fully describes 45 commonly abused substances, **Drug Alert!** encourages responsible decision making and positive values. Rated "4-stars" by *inCider Magazine!*
